

Power Management CMU2 Demo Kit

CMU2 demo kit, the YHS-CMU2C-KIT, is a 2 in 1 marketing tool that contains a CMU2 and a DPU-3200. It is not only can demonstrate MEANWELL's solutions for power management human-machine interface, with the combination of programmable power supply DPU-3200 series and smart controller CMU2, in a seminar or booth. The demo kit can also be utilized as a programmable, high power DC source in daily usage for RMA or application engineers to verify DC-DC and DC-AC products. Moreover, the demo kit is also easy to carry because of the 38.4x14.5x12.7 compact size design.
