

DALI-2 Lighting System Solution Demo Kit

MEAN WELL's DALI-2 Lighting System Solution Demo Kit consists mainly of the DLC-02 Digital Controller, DTP-206-E Panel Switch, DLS-203-P Infrared Motion Sensor and DALI-2 LED Drivers. Simulating a commercial complex, this demo kit is designed to showcase MEAN WELL's one-stop solution for the DALI-2 smart lighting system. With compact dimensions of approximately 53.5x 37.0x 21.5 cm and a lightweight build, it is highly portable and ideal for promoting DALI-2 digital lighting products at seminars, exhibitions and other events.

Main Functions & Features:

- The SPWM-150-24DA2Q, when paired with RGBW light strips, can demonstrate color and brightness variations and is suitable for adjusting the ambiance in shopping malls.
- The DLS-203-P infrared motion sensor, when paired with a DALI-2 driver, demonstrates the automatic control function of lights turning on when people arrive and off when people leave.
- The DTP-206-E panel switch demonstrates DALI dimming control.
- The XLG-50-H-DA2, when paired with luminaires, demonstrates outdoor floodlighting applications.
- The XLC-60-24-DA2, when paired with constant-voltage light strips, demonstrates lighting applications for retail stores or public areas.

Package Content:

1 pc	SPWM-150-24DA2Q
1 pc	XLG-50-H-DA2
1 pc	XLG-40-H-DA2
1 pc	XLC-60-24-DA2
1 pc	DLC-02 Digital Controller
1 pc	DTP-206-E
1 pc	DLS-203-P
1 set	LED lighting
